BACHELOR OF COMPUTER APPLICATIONS (HONOURS with RESEARCH) – 2024
SEMESTER – IV

Course Code: AEC09001
Course Name: Communicative English Lab
Weekly Contact Hours: 4P
Credits: 2
Total Allotted Hours: 60P

Course Objective: The objective of this course is to build communication skills in students through various listening, speaking, reading and writing activities aided by audio-visuals. The goal is to make the students proficient users of the English language in professional and real-life situations.

Pre-requisite(s): Basic Knowledge in English.

Course Outcomes (COs): After completion of the course, students will be able to:

CO1: Engage in effective listening with the aim of understanding the content, recalling key-points and applying the same in real-life conversations and contexts while speaking.
CO2: Develop their speaking ability through observation of audio-visual content that aids them in individual and group-based activities simulating real-life scenarios.
CO3: Develop various language skills, verbal and non-verbal, and analyze them contextually and apply them effectively to face interviews, engage in group discussions, and public speaking.
CO4: Design, create, and deliver professional PowerPoint Presentations and justify their arguments effectively.

Various Modules of this course will be conducted with suitable activities with the help of Computer Assisted Learning Mode and / or Instructor Led Interactive Learning Mode.

Module 1: Learning the English Language through Effective Listening [12H]
